FOLASHADE YETUNDE ADEKUNLE

Microbiology | Web Development | Data Analysis | AI & Digital Skills

Email: fola.a.adekunle@gmail.com | WhatsApp: +234 902 449 3964 | Instagram: @ablackmistress

PROFESSIONAL SUMMARY

Final-year B.Sc. Microbiology student with practical biotechnology and laboratory experience, combined with growing capability in web development, Excel data analysis, Python and AI-assisted digital workflows. Experienced in DNA extraction, microbial culture, gel electrophoresis, NanoDrop quantification, plant tissue culture and basic bioinformatics. Also applies technology and entrepreneurship through website projects, property project supervision and business development.

EDUCATION

B.Sc. Microbiology — Federal University of Agriculture, Abeokuta (FUNAAB)
Ogun State, Nigeria | Final Year

TECHNICAL SKILLS

Web & Programming: HTML, CSS, JavaScript, Python, VS Code, Jupyter

Laboratory: Microbial culturing, culture media preparation, DNA extraction, agarose gel electrophoresis, NanoDrop quantification, plant tissue culture

Data & Productivity: Microsoft Excel (data cleaning, formulas, PivotTables, dashboards), Microsoft Word, PowerPoint

Bioinformatics & AI: BLAST, BioEdit, MEGA, AI tools, prompt-based content and workflow creation

EXPERIENCE

SIWES / Industrial Training — Biotechnology Centre, FUNAAB | 2026

- Performed plant, animal and fungal DNA extraction using CTAB and DNA isolation kit methods.
- Prepared and sterilized culture media, cultured soil isolates, and supported microbial isolation procedures.
- Prepared agarose gels, carried out gel electrophoresis and visualized DNA results using a transilluminator.
- Used NanoDrop spectrophotometry for DNA quantification and gained exposure to plant tissue culture and analytical laboratory procedures.
- Used BLAST, BioEdit and MEGA for introductory sequence analysis and phylogenetic work.

Property Project Supervision & Management — Arewa Properties

- Supports property and construction project supervision, including progress follow-up and communication for clients who cannot be regularly present on site.
- Provides practical support around property management, land acquisition guidance and project monitoring from early construction stages toward completion.

SELECTED PROJECTS

- Personal Portfolio Website — Built a responsive multi-view portfolio using HTML, CSS and JavaScript with dedicated business pages and interactive navigation.
- Arewa Skincare Website — Developed a product-focused web presence for a skincare venture with responsive layouts and customer contact pathways.
- Arewa Properties Website — Created a premium property-focused website showcasing property services, project supervision and client enquiry options.
- Excel Data Analysis — Practised data cleaning, formulas, PivotTables, PivotCharts and dashboard creation for structured reporting and decision support.

ENTREPRENEURSHIP & ADDITIONAL DEVELOPMENT

Founder / Business Development: Arewa Skincare and Arewa Properties

Training & Development: AI Skills Scholarship Program; ongoing development in web technologies, Python, AI tools and digital productivity.

CORE STRENGTHS

Analytical thinking • Communication • Continuous learning • Creativity • Attention to detail • Entrepreneurship • Adaptability
